

THz-Health Product

The THz-Terafit Nexus is a compact and portable water-making device with multiple practical functions and various usage scenarios. It brings convenience to your healthy lifestyle and work.

Can produce **7.6Hz** cell-level drinking water

🕒 Only takes three minutes Can process all consumable liquids

A SUPER-CORE TERAHERTZ! STRONGER! BETTER!
Equivalent to the energy of three cores terahertz water activator.

What is the Super-Core Terahertz Water Activator?

It is a non-contact molecular activation device for water, capable of activating all consumable liquids using a unique "additive-free, non-contact" physical method.

Through patented technology, the 7.6HZ Terahertz wave has an activating effect on drinking water. It transforms the clustered state of ordinary water into cell-direct water with a straight-chain structure that the human body needs. This water can be directly absorbed by cells. Regular consumption helps enhance cellular activity, lower blood viscosity, eliminate waste and toxins, and repair each cell, promoting overall health and vitality.

As Constituents of Cells and Body Fluids

Approximately 70-85% of cells contain water, while fat accounts for less than 10%. Water is also a major component of blood.

Regulating Body Temperature

It generates, absorbs, and transfers heat throughout the body to maintain temperature stability.

Four Functions of Body Hydration

Acting as a Solvent

It dissolves various substances within the body.

Serving as a Lubricant and Cushion

In joint lubrication/fluid. As a cushion for tissues/organs, such as the brain, uterus, eyes, and more.

Exclusive patented Super-Core Terahertz technology makes water finer and smoother!

*Only Terafit Nexus has a Super-Core Terahertz!

Usage Steps

- 1** Charge for 2 hours before first use, and it will be ready for use.
- 2** Press the button on top of the product for 1 second to start. The product will emit a 'beep', and the surrounding colorful light will start operating, indicating the device is running properly.
- 3** Each activation lasts for 180 seconds, after which it will automatically stop and emit three 'beep beep beep' sounds, indicating the end of the process.
- 4** During operation, pressing and holding the power button for 3 seconds will force shutdown, indicated by three 'beep beep beep' sounds.
- 5** Each water production cycle should not exceed 2 liters.
- 6** The THz-Terafit Nexus has a battery indicator with three blue lights.

- When the power is less than **30%**, one blue light will illuminate.
- Between **30%-75%**, two blue lights will illuminate.
- Above **75%-100%**, all three blue lights will illuminate.

Structural Constraints: Height 30cm, Width 20cm, Capacity: Max 2L(Liter).

Ensure children do not play with this device.

Use only high-quality **Type-C** charging cables. Do not use counterfeit or inferior cables.

Benefits of Drinking Hertz Water for the Body

Antioxidant, Antibacterial, Antiviral, Anti-Radiation

- Close to the frequency of human cells, enhancing cellular communication.
- Reduces the likelihood of major diseases.
- Improves blood viscosity, reducing the likelihood of cardiovascular incidents.
- Adjusts the body's pH level.
- Inhibits harmful bacteria and viruses.
- Increases cellular oxygen content.
- Powerful sterilization effect, enhances immune system.
- Strong antioxidant effect.

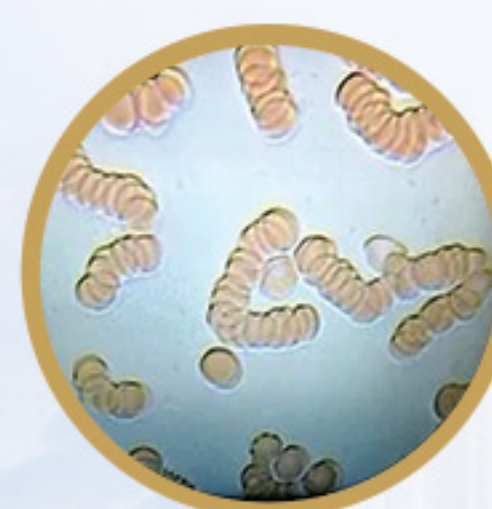

Relieves fatigue, gently massage the temples.

It is equipped with a unique Schumann wave frequency, which can help release tension and relax a tired mind.

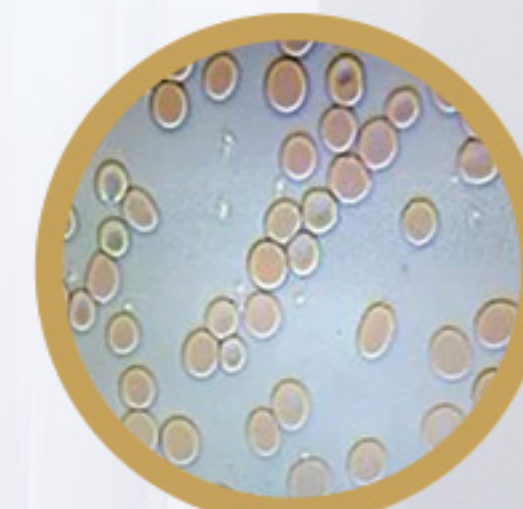

Comparison Before and After Drinking Hertz Water for Blood Viscosity

Improving Blood Viscosity

Comparison of blood viscosity before and after drinking water for 20 minutes

Before

After

After consuming Terahertz Water, cells rapidly absorb nutrients to nourish the entire body.

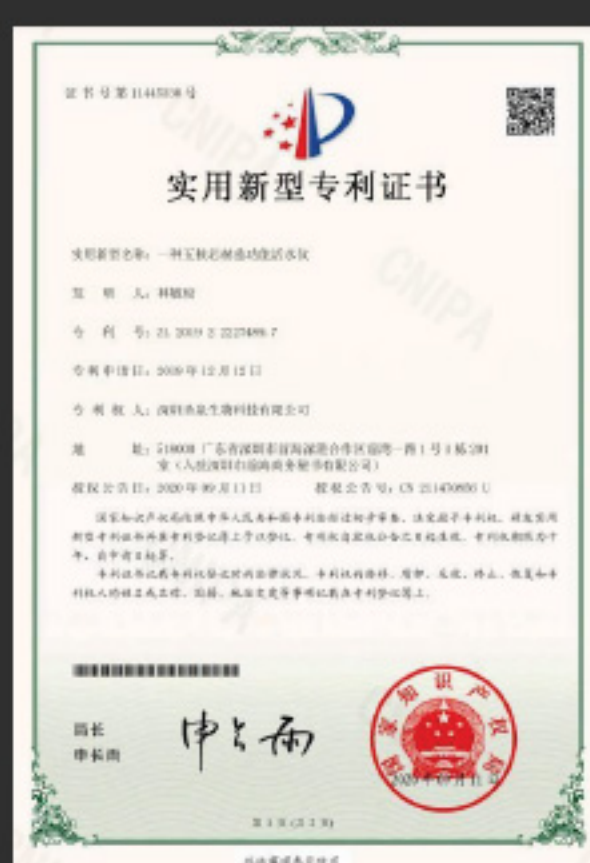

Love at 7.6 Hz

Drink **good** water Drink **enough** water Drink **more** water
